CU Members Mortgage's Celebrates 35 Years of Serving Credit Unions Across the Country with a Special Enhancement

June 5, 2017 – Addison, Texas – CU Members Mortgage celebrates 35 years in serving credit unions across the country with a new technology enhancement for their direct lending credit union clients. These enhancements include a new mobile application and also added document upload feature after application.

The new customizable mobile application is MortgagebotMobile, the first completely mobile loan application. It will allow credit unions to take complete, accurate, qualified applications and allow applicants to move seamlessly between channels via the cloud.

The new document upload feature will allow credit union members applying online the ability to upload documents into their application. This will allow a secure online portal for the exchange of documents and credit unions will be able to review the documents as part of their Program Manager setup with CU Members Mortgage.

“Whether it’s a new regulation or new technology being implemented, change is part of mortgage lending. The key to thriving in this environment is finding a lender who has the experience and tenacity to push through and become even better,” said Senior Vice-President Linda Clampitt. “At CU Members Mortgage, we listen carefully and adjust the way we do business to make sure we are meeting the need of our clients and their members. These new enhancements show our commitment continues as we celebrate our 35th year with this special enhancement for our credit unions.”

CU Members Mortgage started in 1982 as one of the first aggregators to meet the needs of credit unions and they were one of the first to offer an online mortgage application for members. Their expertise has provided many achievements in servicing and as a division of Colonial Savings, they continue to receive a 5-Star Superior ranking by BauerFinancial.
